Eschmann operating table accessories

Quality & performance you can trust, completely
In terms of quality and reliability Eschmann operating tables are acknowledged as being second to none, the very best in medical engineering technology for over 100 years – our assurance for your complete confidence.

The Eschmann philosophy is one of working closely with the people that matter the most – the surgical clinicians and operating theatre professionals that use our world class products. This close cooperation allows us to develop a range of operating table accessories that consistently exceed the exacting demands required in today’s operating theatre environment.

This brochure showcases the current range of Eschmann operating table accessories allowing surgeons and medical professionals to undertake almost every type of procedure.

Exceptions details in this brochure can be used on all operating tables unless otherwise stated. Suggested clamp requirements are stated against each accessory. Please ensure that the correct clamps are ordered to suit the table for which the accessories are intended.
General Accessories

Accessory fixing clamps

Rotary clamps will accept all standard 16mm diameter accessory posts. Some of the clamps shown here are only used on certain accessories and are detailed here for ease of identification.

Please ensure the correct clamp is ordered to suit the table for which the accessories are intended.
Flexible anaesthetic screen 81-273-04
Requires 2 direct on drop handle clamps (TA-020-1084/5)
or 2 rotary clamps (TA-020-1082/6/7)

Anaesthesia carbon fibre screen with extensions and integral UK clamp  R10-313-UK
(Height range: 530mm - 860mm
Full width: 1700mm)
Anaesthesia carbon fibre screen with extensions and integral Euro clamp  R10-313

Narrow arm table with trigger, integral clamp and 50mm pad (660mm x 140 mm).
UK  81-270-29
EURO  81-270-27
Spare pad  81-271-06

Anaesthetic screen with sleeve 81-286-18
(550mm x 480mm)
Requires 1 direct on drop handle clamp (TA-020-1084/5)
or 1 rotary clamp (TA-020-1082/6/7)
Spare sleeve for anaesthetic screen 81-288-12

Narrow arm table with contoured pad 81-300-19
(630mm x 210mm wide)
Spare contoured pad (580mm x 210mm wide) 81-302-13
Standard pad (580mm x 210mm wide)  TA-050-1030
Requires 1 rotary anti drift clamp (81-270-45)

Narrow arm table with 50mm pad and integral clamp (660mm x 140 mm).
UK  81-270-25
EURO  81-270-19
Spare pad  81-271-06

Orthopaedic and Trauma

Modular traction and positioning accessories

A range of orthopaedic accessories is available for the Eschmann T30 operating table enabling surgeons to undertake a number of specialist procedures including leg and hand traction, tibia nailing and lateral femoral nailing. T30 operating tables can be easily converted to enable the attachment of orthopaedic accessories using the T30 orthopaedic trunk (see page 18). A docking cart is also available to ensure quick and easy change over from a standard lower trunk to a T30 orthopaedic trunk.

Orthotec 5 system accessories

The Orthotec 5 system is a range of orthopaedic and traction accessories specifically developed for use with Eschmann MR, J4 and RX500 tables. **Orthotec 5 is only available for export customers.**

**Orthotec 5 attachment**

Orthotec 5 (for use with MR & J4 tables) 81-905-18
Complete with sacral support assembly, 1 x Perineal post (81-947-26), 1 x Sacral support large (81-938-19), 1 x Sacral support extra large (81-922-19), 1 x 80mm pad for 81-922-19, (81-922-94), 1 x set of 2 Booties, adult (81-944-16).
Orthotec 5 attachment for RX500, as 81-905-18 but with Orthotec shoe. 81-908-20
Orthotec shoe for RX500. 81-928-20

**Orthotec 5 spares**

Offset insulated traction bracket 81-930-45
Kirschner stirrup adaptor for use with 81-930-45/9 81-930-53
Tibia nailing accessory 81-933-04
Hand traction device 81-601-68
Sacral support plate - large 81-938-19

**Other spares**

Spare pad for counter traction bar of tibia nailing set (81-933-04) 81-933-20
Spare pad for knee stabiliser bar of tibia nailing set (81-933-04) 81-933-39
Shoulder positioners

Power assisted movement

The T20 and T30 shoulder positioners are easily attached to the respective operating tables and are suitable for all patient sizes, up to 220kg. The positioners are designed to facilitate all procedures involving the shoulder girdle and upper arm. The T20 and T30 shoulder positioners utilise the powered functions of the operating table to position the patient, minimising manual handling. Individual removable back sections ensure the patient is adequately supported while achieving unrivalled access for surgery. Fully adjustable, the head support ensures anatomically correct patient positioning.

T20 shoulder positioner

T20 shoulder positioner - 81-267-71
To fit UK/Euro side rails (clamps included)

T20 shoulder positioner - 81-268-15
To fit US side rails (clamps included)

T20 Shoulder Positioner Upgrade Kit - 81-268-51
1 x Low Profile Head Support - Complete,
1 x 80mm Offset Head Support Column - Short (319mm)
1 x 80mm Offset Head Support Column - Long (415mm)

T30 shoulder positioner

T30 shoulder positioner complete - 81-267-64
T20 Shoulder Positioner Upgrade Kit - 81-268-54
1 x Low Profile Head Support - Complete
1 x 80mm Offset Head Support Column - Long (415mm)

DORO® Adjustable base unit
- Requires relevant accessory attachment bar to fit table
- Fits directly onto RX, J3 and MR models
- Fits directly onto T Series tables

Accessory Attachment bar
- For use with T20/30 to allow narrow pin attachments
- For RX system, MR and J3
**Standard system**

DORO® Crossbar adaptor 81-593-20  
For procedures requiring seated positions, adjustable. Requires DORO® adjustable base unit (81-590-01) and 2 rotary anti-drift clamps (81-270-45)

DORO® 6” Transitional Member 81-590-23  
DORO® Skull Clamp 81-590-56  
DORO® Swivel adaptor 81-590-34  
DORO® Ball and Socket swivel adaptor 81-590-45  
DORO® Horseshoe Headrest (Adult) with extension bar and gel pads 81-591-11

DORO® Horseshoe headrest (Paediatric) with extension bar and gel pads 81-591-44

DORO® Horseshoe pad, Adult, left 81-591-22  
DORO® Horseshoe pad, Adult, right 81-591-33  
DORO® Horseshoe pad, Paediatric, left 81-591-55  
DORO® Horseshoe pad, Paediatric, right 81-591-66  
DORO® Gel Prone headrest 81-591-77

**Multi purpose system**

DORO® Multi purpose Skull Clamp, Adult and Paediatric (set) comprising: Multi purpose skull clamp, Head support, Pin holder paediatric, Single pin holder, Pin holder adjustable - paediatric, Disposable skull pins - paediatric (pack of 36), Trio gel pad adjustable, Gel head rings with base 90mm (3 pcs), Gel ear ring with base 90mm (2 pcs), Gel head ring with base 140mm (7 pcs), Adjustable key.

DORO® Gel head ring with base, 90mm 81-590-69  
DORO® Gel head ring with base, 140mm 81-590-71  
DORO® Gel ear ring open with base, 90mm 81-590-73  
DORO® Gel ear ring open with base, 140mm 81-590-75
Radiolucent system

DORO® Radiolucent headrest complete system 81-591-88
Constructed of Novotex®. No metal parts to interfere with intra-operative imaging. Set comprising of: Storage case, base unit, transitional member-long, transitional member-short Swivel adaptor, skull clamp, disposable titanium pins, Adult (36 pieces).

DORO® Transitional member Radiolucent - to Aluminium base unit 81-592-21

DORO® Transitional member Radiolucent, long (160mm) 81-592-32

DORO® Transitional member Radiolucent, short (120mm) 81-592-43

DORO® Radiolucent swivel adaptor 81-592-54

DORO® Radiolucent interface for skull clamp 81-592-65

DORO® Aluminium interface for skull clamp 81-592-76

DORO® Swivel Horseshoe headrest, Radiolucent, Adult, with extension bar 81-591-80

DORO® Swivel Horseshoe headrest, Radiolucent, Adult, without extension bar 81-591-82

DORO® Swivel Horseshoe headrest, Radiolucent, Paediatric, with extension bar 81-591-84

DORO® Swivel Horseshoe headrest, Radiolucent, Paediatric, without extension bar 81-591-86

DORO® Radiolucent skull clamp 81-592-87

DORO® Teflon base unit 81-593-42
Made from aluminium with Teflon coating. Requires accessory attachment bar (TA-030-3004) for use with T Series tables.

DORO® Teflon swivel adaptor 81-593-53

DORO® Teflon skull clamp 81-593-64

Skull pin sets

DORO® Adult reusable skull pins (set of 3) 81-590-78

DORO® Paediatric reusable skull pins (set of 3) 81-590-89

DORO® Disposable adult skull pins Colour coded blue for ease of use, sterile packs of 3 pins (36 pins/box) 81-591-00

DORO® Disposable paediatric skull pins Colour coded yellow for ease of use, sterile packs of 3 pins (36 pins/box) 81-592-98

DORO® Disposable adult titanium skull pins Colour coded turquoise for ease of use, sterile packs of 3 pins (36 pins/box) 81-593-09

81-591-80 81-592-98 81-593-09
Spinal Frames

Radiolucent Spine Surgery Frame System
(includes Cart 81-271-48, Crank Arm 81-271-45 and case of 6 sets Skin Care Covers 81-271-36)
Skin Care Covers (case of 6 sets) 81-271-36
Standard Covers (case of 6 sets) 81-271-39
Replacement Pad Set 81-271-42
Crank Arm for Radiolucent Spine Surgery Frame 81-271-45

Wilson spinal surgery frame 81-569-58
Complete with ProneView® head support system
Patient care kit - single patient use (6 per case) 81-569-66
Kit comprises:
1 x ProneView® cushion insert, 2 x pad covers, 1 x base cover drape, 2 x foam arm cradles, 1 x cross bar adaptor
ProneView® adjustable mirror 81-569-04
Replacement ProneView® Helmet 81-569-47
Replacement Gel pad set 81-569-25

Laminectomy support pad (montreal mattress) 81-569-13
990mm x 130mm
Patient Positioning Aids

Flexible patient positioning

The Modular Patient Positioning System (MPPS) from Eschmann has been designed to complement the range of surgical procedures carried out in today’s operating theatres by utilising a range of modular components that can be easily configured to hold and position the patient in tune with their anatomy.

Simple, fast, configuration

The MPPS system has been designed with speed and ease of use in mind. Simply changing the support pad and a small adjustment of the support bar can provide outstanding support for a completely different position or procedure. Make up your own MPPS set or choose one of MPPS kits overleaf.

Ball locking clamp assembly (150mm) TA-020-1039

Gel pads

Patient positioning comfort

Eschmann offer a wide range of pressure relieving gel pads for use in patient support and positioning. Gel pads are becoming more commonly used during lengthy procedures to reduce the pressure on certain parts of the body that are more sensitive when situated on the operating table for a prolonged period. All gel pads are made from 100% silicone based gel, which resembles the texture of human tissue, providing exceptional comfort and superior performance.

- Contoured armboard Gel Pad
  (460 x 180 x 35mm)
  - 81-302-72

- Perspex arm support gel pad
  (170 x 110 x 15mm)
  - 81-368-31

- Patient positioning gel strap
  (Max length approx. 2500mm)
  - 81-462-24

- Sacral support gel pad, for all tables
  (450 x 445 x 30mm)
  - 81-469-17

- Gel Head stabilisers
  - Adult (260 x 250 x 50mm)

T Series operating tables

Eschmann operating tables have been trusted by medical professionals the world over for over 100 years. The T Series family of operating tables is no exception, providing outstanding choice and flexibility for both general and specialist surgical procedures.

Basic General Surgery Operating Table

- Capable of 250kg maximum patient weight
- 703-1003mm height range (excluding mattress)
- 600mm wide table top
- Full length radiolucent top with integral X-ray cassette tunnel
- Interchangeable head and leg sections
- Lightweight, seamless mattresses with secure “Velcro free” fixings
- Choice of sidebars available - maximising use of existing accessories

General Surgery Operating Table

- Capable of 450kg maximum patient weight
- 670-1070mm height range (excluding mattress)
- 600mm wide top plus optional width extenders
- Full length radiolucent top with integral X-ray cassette tunnel

General Information

Ordering
Please ensure you order the correct clamps for accessories that require attachment to the table sidebars. If you need help finding out if your existing clamps will be suitable please contact your local Eschmann representative who will be happy to help.

Service
Eschmann products are supported by a worldwide network of fully trained engineers, offering high quality Eschmann spare parts. For further information on the range of Service Contracts available, please contact your local Eschmann representative.

In the UK all Eschmann operating tables are fully supported by our team of professional engineers.

Imagery in this publication has been taken to illustrate the operating table movements and as such do not constitute a guide to correct patient positioning.

All accessories supplied are CE marked in compliance with the Medical Device Directive 93/42/EEC.

All products are latex free.
